PROFILE

Information technology graduate (B.Sc.) seeking a junior position in networking or web development alongside master's studies. Hands-on experience from building a full-stack web application, running a DNS server on a home network and providing on-site IT support.

In my free time I enjoy video production, trail running and handcrafts.

EDUCATION

Tampere University 09/2026 to present
Studying for a Master of Science (Technology) in Information Technology. Majoring in Communications Engineering and minoring in Economics.

Tampere University 08/2023 to 09/2026
Bachelor of Science (Technology), Information Technology. Majoring in Communications Engineering and minoring in Software Development.
Thesis: *Using Radar to Prevent Deer Collisions in Traffic*

PROJECTS

aadaharma.com: web tools for fibre arts 10/2026 to present
A website of browser-based tools for craft pattern design. Defined the features, drew the UI graphics in Procreate and with my own Karelian Embroidery Designer, built the site with Claude Code and published it on Vercel.

- **Karelian Embroidery Designer:** editor for drawing embroidery patterns on a grid. Patterns can be drawn freely or built from ready-made motifs.
- **Round yoke sweater calculator:** calculates cast-on, increase rounds and stitch counts for the body and sleeves from the user's gauge and measurements.
- **Knitting pattern library:** pattern database where I publish my own knitting patterns.
- **Admin page:** password-protected page for publishing knitting and embroidery patterns in the app.
- **Technologies:** Next.js, PostgreSQL, Vercel
- Source code: github.com/aadaharma/aadaharma-site

Pi-hole DNS server for a home network 04/2026 to present
Set up Pi-hole on a Raspberry Pi running Arch Linux. It serves as the home network's DNS server and ad blocker, and I manage it remotely over SSH.

SKILLS

Networking: DNS, TCP/IP, Cisco IOS, Pi-hole, LAN configuration, GNS3

Programming: C++, Python, JavaScript, Java, SQL

Web development: Next.js, PostgreSQL, Git, Vercel, AI-assisted development with Claude Code

Languages: Finnish (native), English (excellent), Swedish (satisfactory)

WORK EXPERIENCE

IT Support Assistant, on-site support, Tampere University, Tampere 06/2026
Provided on-site IT support to applicants during the university's entrance examinations: troubleshooting technical issues, customer service and managing spare devices.

Cleaner, Winclean Oy, Tampere 08/2022 to 06/2025

Room Attendant, SOL Henkilöstöpalvelut Oy (Scandic Hotels), Tampere Summers 2021 and 2022
